WHY YOU SHOULD CHOOSE SELECT AS YOUR CLUB SUPPLIER

PERSONALIZED ADVICE

Our experienced team is always ready to guide you in choosing the right products for your specific needs.

FAST DELIVERY

We understand the importance of having the right equipment available when you need it.

SUSTAINABILITY

We take our responsibility for the environment seriously and are constantly working to minimize our environmental impact.

WHY SELECT FOOTBALLS ARE PLAYER'S CHOICE™

HIGHEST QUALITY

At SELECT, we create footballs of the highest quality. Durability and functionality are always in focus when we work on the production of our footballs.

FOOTBALLS FOR ALL PURPOSES AND LEVELS

With us, you'll find footballs for top professional levels, club level, street football, technical training, indoor football, artificial grass, youth football, and leisure football.

RECOGNIZED BY MAJOR FOOTBALL LEAGUES

Several major football leagues play with our footballs, including the German Bundesliga under the DERBYSTAR brand. Additionally, we have been the official ball sponsor of the Danish Football Association (DBU) since 1951.

INNOVATIVE INVENTIONS

In 1962, our founder, Egil Nielsen, developed a football with 32 panels – a revolutionary design in the world of football. Until then, footballs had only 18 panels as standard, which resulted in an unreliable ball. The newly developed SELECT football, on the other hand, had an optimal roundness, ensuring a straight and predictable flight as well as a controlled bounce. The invention of the football with 32 panels has been greatly appreciated by many football players ever since.

Developing the football is still a major focus for us, and in 2022, we were able to present the first FIFA-approved intelligent football: the SELECT Brilliant Super iBall with built-in chip technology.

Chance LIGA

PARTNER IN CZECH TOP FOOTBALL

The Chance Liga, the top tier of Czech professional football, stands as a shining example of growth and quality in European football. Since 1993, the league has evolved into one of Central Europe's strongest, and today it proudly ranks 10th on UEFA's coefficient list.

With 16 ambitious clubs and a steadily growing fanbase, the Chance Liga delivers exciting matches and emerging stars.

As the official match ball supplier, SELECT is proud to be part of this journey. Our top footballs are crafted to meet the demands of the Czech football elite. Every pass, every goal, and every victory in the Chance Liga begins with a SELECT ball.

SELECT was the first-ever official ball partner for the best league in the Czech Republic, and the cooperation has now been extended to also include the second tier, the Chance Národní Liga, as well as the top women's league, FORTUNA:LIGA.

SELECT SUPPLIES BALLS TO DENMARK'S BEST FOOTBALL LEAGUES AND NATIONAL TEAMS

SELECT has been chosen as the official ball supplier for Denmark's national football teams, the 3F Superliga, Betinia Ligaen, 2nd and 3rd Division, and the A-Liga.

3F SUPERLIGA

When Denmark's top football teams clash in the 3F Superliga, tradition, rivalry, and passion are on the line. To match the high standard and big expectations, the league has chosen SELECT as its official ball supplier. All matches are played with our innovative Brilliant Super UZ, which is the first football in the world to be produced using ultrasound welding. The ball's unique construction gives players the best possible conditions to excel, resulting in even more compelling matches for all football fans.

A-LIGA

In the new A-Liga, Denmark's best female footballers compete for the championship title. The league is rapidly developing, and the quality is constantly rising. To match the high standard and give players the best conditions, the league has chosen SELECT as its official ball supplier. Just like the 3F Superliga, all matches are played with our groundbreaking top ball, Brilliant Super UZ, enabling players to perform at the highest level.

Swedish football with SELECT as a partner

For years, SELECT has been a loyal partner to Swedish football. As the official ball supplier to both Allsvenskan and Superettan, we have been part of creating memorable moments in Swedish football history. A partnership built on a shared passion for the game.

Allsvenskan and Superettan are the top two football leagues in Sweden, and they have a huge fan base. These leagues are known for their high level, exciting matches and skilled players. To ensure that the matches are played at the highest level, both Allsvenskan and Superettan have chosen SELECT as their official ball sponsor.

Allsvenskan, Sweden's premier football league, has a long and proud history. Since its establishment in 1924, the league has been a gathering place for talents, tactics, and rivalries. Superettan, which was founded in 2000, has added another chapter to Swedish football history and has served as an important foundation for many talents.

Each year, the champions of Allsvenskan lift the Lenart Johansson trophy, named after the late Lennart Johansson, who among other things was president of UEFA between 1990-2007.

SELECT – A CORE PART OF NORWEGIAN FOOTBALL DNA

For many years, SELECT has proudly served as the official ball supplier to Eliteserien, OBOS-ligaen, and Toppserien in Norway. This commitment extends beyond the league matches; SELECT is also the official match ball supplier for the Norwegian cup tournament for men and women, where the annual finals take place in December.

Through this partnership, we have also become the official clothing supplier to teams in Eliteserien, providing their match kits, training kits, and leisurewear.

CONFIRMED: SIX MORE YEARS OF COLLABORATION

Our long-standing relationship with Norsk Toppfotball (NTF) is now set to continue. SELECT has sealed a major partnership extension, confirming that we will supply the official league ball for Eliteserien and OBOS-ligaen until the end of 2031.

This agreement ensures predictability and quality for all involved parties. Pål Breen, Commercial Director at NTF, states: “Select has consistently delivered outstanding quality throughout our long-standing collaboration. We are genuinely looking forward to working together for a minimum of six more years.” When the new season kicks off March 2026, it will feature a completely new ball design. This ball is designed to stand out in sun, rain, and snow.

BRILLANT SUPER TB BETCLIC-1 V25

Style no. 101214 Size 5 (FIFA Quality Pro)

Price PLN 710

SELECT is the official ball supplier to Betcllic 1. Liga, Poland's second tier. This is one of our absolute top footballs, made of carefully selected materials of the highest quality, with characteristics from a classic SELECT ball. The new 3D diamond structure on the surface material ensures an even more stable trajectory, optimized friction between ball and boot, and the best grip for goalkeepers. The single-colored ball panels ensure clear visibility of the ball for both players and spectators. The 32 ball panels are thermally bonded together, and absorb less water, preserving the ball's original weight when playing on a wet surface. Beneath the surface, you'll find a newly developed lining, made of a 4mm exclusive foam material, and including a Zero-Wing latex bladder with an integrated balance point opposite the valve. The outer material and the underlying foam give the ball a light and comfortable softness.

BETCLIC LIGA AND ORLEN EKSTRALIGA KOBIET

SELECT is the official ball supplier to Betcllic 1. Liga, Poland's second tier. This league serves as a breeding ground for many talented players who dream of reaching the top flight, the Ekstraklasa. Betcllic 1. Liga comprises 18 teams that compete against each other. The team finishing top is promoted directly to the Polish top division, the Ekstraklasa. Those at the bottom are relegated to the third tier.

SELECT also supplies match balls to Betcllic 2, Poland's third tier.

In exciting news, we at SELECT are happy to announce that we are now also the official ball supplier to the top tier of Polish women's football, the OrLEN Ekstraliga Kobiet. This league provides a platform for Poland's top female footballers and plays a vital role in the development of women's football in the country. The league consists of 12 teams competing for the title of Poland's best women's football team.

WHY SELECT FUTSAL BALLS ARE PLAYER'S CHOICE™

HIGHEST QUALITY

At SELECT, we craft futsal balls of the highest quality. Durability and functionality are always a focus when we engage in the production of our futsal balls.

BEST MATERIALS

For making the best balls, you need the best materials. We constantly search the market for the best available materials – and we use them. Without compromises.

PERFECT FOR FUTSAL

Our futsal balls are designed to meet the demands of fast-paced play. They have a surface that ensures optimal ball contact and control. The soft core makes the ball less lively and easier to control, perfect for the nature of futsal.

WIDE SELECTION

You'll find futsal balls in our range catering to top professional levels, club play, as well as for children and youth.

PRODUCTION EXPERTISE

We use all modern and up-to-date production methods available, and we are always in front when it comes to optimizing and developing balls and materials.

RECOGNIZED BY PROFESSIONALS

Our FUTSAL SUPER series is the preferred choice of professional leagues, teams, and players worldwide due to its innovative features and high-quality materials.

ENVIRONMENTALLY FRIENDLY FUTSAL BALL

Our PLANET futsal ball is partially made from recycled plastic bottles. Additionally, natural latex is used in this ball, reducing the environmental impact of the ball. The material composition of our PLANET Futsal is as follows: Polyurethane (50% recycled from PET bottles), polyester (80% recycled from PET bottles), butyl bladder.”

WE ARE EXPERTS

In all modesty, we consider ourselves as ball experts. We have several people working only with ball production and development, just to ensure that even the smallest detail of a ball is as perfect as possible.

TESTS FOR PERFECTION

All our balls are well tested before they enter the market – first, the balls are tested thoroughly by players and clubs in the development phase. After production, the balls are tested thoroughly in quality control before they are released for sales. We spend a lot of resources with testing in order not to compromise on what we deliver.

WHY SELECT HANDBALLS ARE PLAYER'S CHOICE™

HIGHEST QUALITY

At SELECT, we create handballs of the highest quality. Durability and functionality are always in focus when we work on the production of our handballs.

HANDBALLS FOR ALL PURPOSES AND LEVELS

With us, you'll find handballs for top professional levels, club level, children's training, specialized training, and leisure handball.

RECOGNIZED BY MAJOR HANDBALL LEAGUES AND FEDERATIONS

The SELECT Ultimate handball is considered the world's best handball and has been chosen by the European Handball Federation (EHF) as the official match ball for the Champions League, the world's largest club tournament, as well as all other EHF club tournaments and European Championships.

INNOVATIVE INVENTIONS

In 2018, SELECT presented the first intelligent handball: Ultimate iBall. This iBall has already been used in several international tournaments. Via the built-in chip, data on the ball's speed, shooting direction, shooting position, and placement in the goal is recorded in real time, for the enjoyment of fans and TV stations. The SELECT Ultimate iBall was voted "Product of the year" at ISPO 2019.

GOALCHA FIVE-A-SIDE

Style no. 240011 Size 2

Price PLN 210

Five-a-side handball is a new and modern form of senior handball, developed in 2018 by DHF and DGI in Denmark.

The aim was to create a sports activity with a wide appeal, where anyone can participate regardless of level and skills.

The ball is a further development of the popular Goalcha Street handball. Designed for Five-a-side handball.

The ball is also suitable for beach handball and other outdoor activities.

Good for warm-up exercises and technical training for youth and senior teams. The ball is filled with polyfibre instead of a normal bladder, which makes it extremely soft.

The softness gives the ball a fantastic grip, which allows for a quick game where everyone can participate regardless of level and skill.

No resin is used for this type of ball and it does not need to be inflated.

The ball is machine-stitched.

EHF approved.

NEW BUCKETS MADE FROM RECYCLED PLASTIC - SAME GREAT CONTENTS

We're excited to introduce our new range of sports massage and recovery products. This series features innovative creams and gels designed to meet your specific needs.

We've given our entire sportscare range a makeover! All our bottles are now made from recycled HDPE plastic (except for the lids). Partnering with Danish company Aage Vestergaard Larsen (AVL), we've created innovative bottles from sorted plastic waste. By switching to this new material, we're cutting down on virgin plastic production and helping to reduce plastic pollution worldwide.

Our popular heat creams have new names, but the same great quality you've come to expect. Our Heat 1, Heat 2, and Heat 3 can really boost a sore area or prepare your body for activity. Our Camphor balm packs a punch and can be used in larger areas. In addition to our well-known massage cream, we have also launched a new Massage Cream+ with soothing bergamot.

Last but not least, we are proud to present a new gel called "Recovery Gel," based on Aloe Vera, Mint, and Eucalyptus, to aid in post-workout recovery.

While the look of our well-known buckets has changed, the quality of our products remains the same. Our buckets still contain some of the best products on the market, made locally in Denmark.

AMERICAN FOOTBALL V26

Style no. 430066 Size 5, 3

Price PLN 99

Rolling out of your hand, it spins through the air like a diamond before hitting the end-zone with a phenomenal catch. Energy and vibe are through the roof - your backyard, city grounds or local field can feel like a national arena, and we're here to support it with our 2026 American Football. Created in a highly durable rubber to optimize end-zone grip. We've done a different take on its design - giving it a rowdy and wild personality away from the traditionally brown look-a-likes. Inspired by all the doodles you did in class to pass time until recess. Filled with words and power moves related to the sport. Go out and have fun.

Looking down, there's the line, the jumpshot flies towards the net... and there it goes! 3 points for the home team! The energy and vibe are electric - your backyard, city grounds, or local court is your national arena, and we're here to support it with our v26 Street Basketball. Created in highly durable rubber with a thick structure to optimize grip and control. We've taken a different approach to its design, giving it a rowdy and wild personality unlike traditional look-alikes. Inspired by all the doodles you did in class to pass time until recess, it's filled with words and power moves related to the sport. Go out and have fun!

BALLS IN A NEW UNIQUE DESIGN

We have given our "other balls" category a makeover with a series of designs that are anything but traditional. The inspiration for the new basketball, beach volleyball, and American football comes from the doodles we all drew in school—resulting in an unconventional design that is both fun and unique. Our volleyballs have also received a great updated look with new colors. Grab one of the new balls and head out to have fun - the game has never looked better!

MONACO

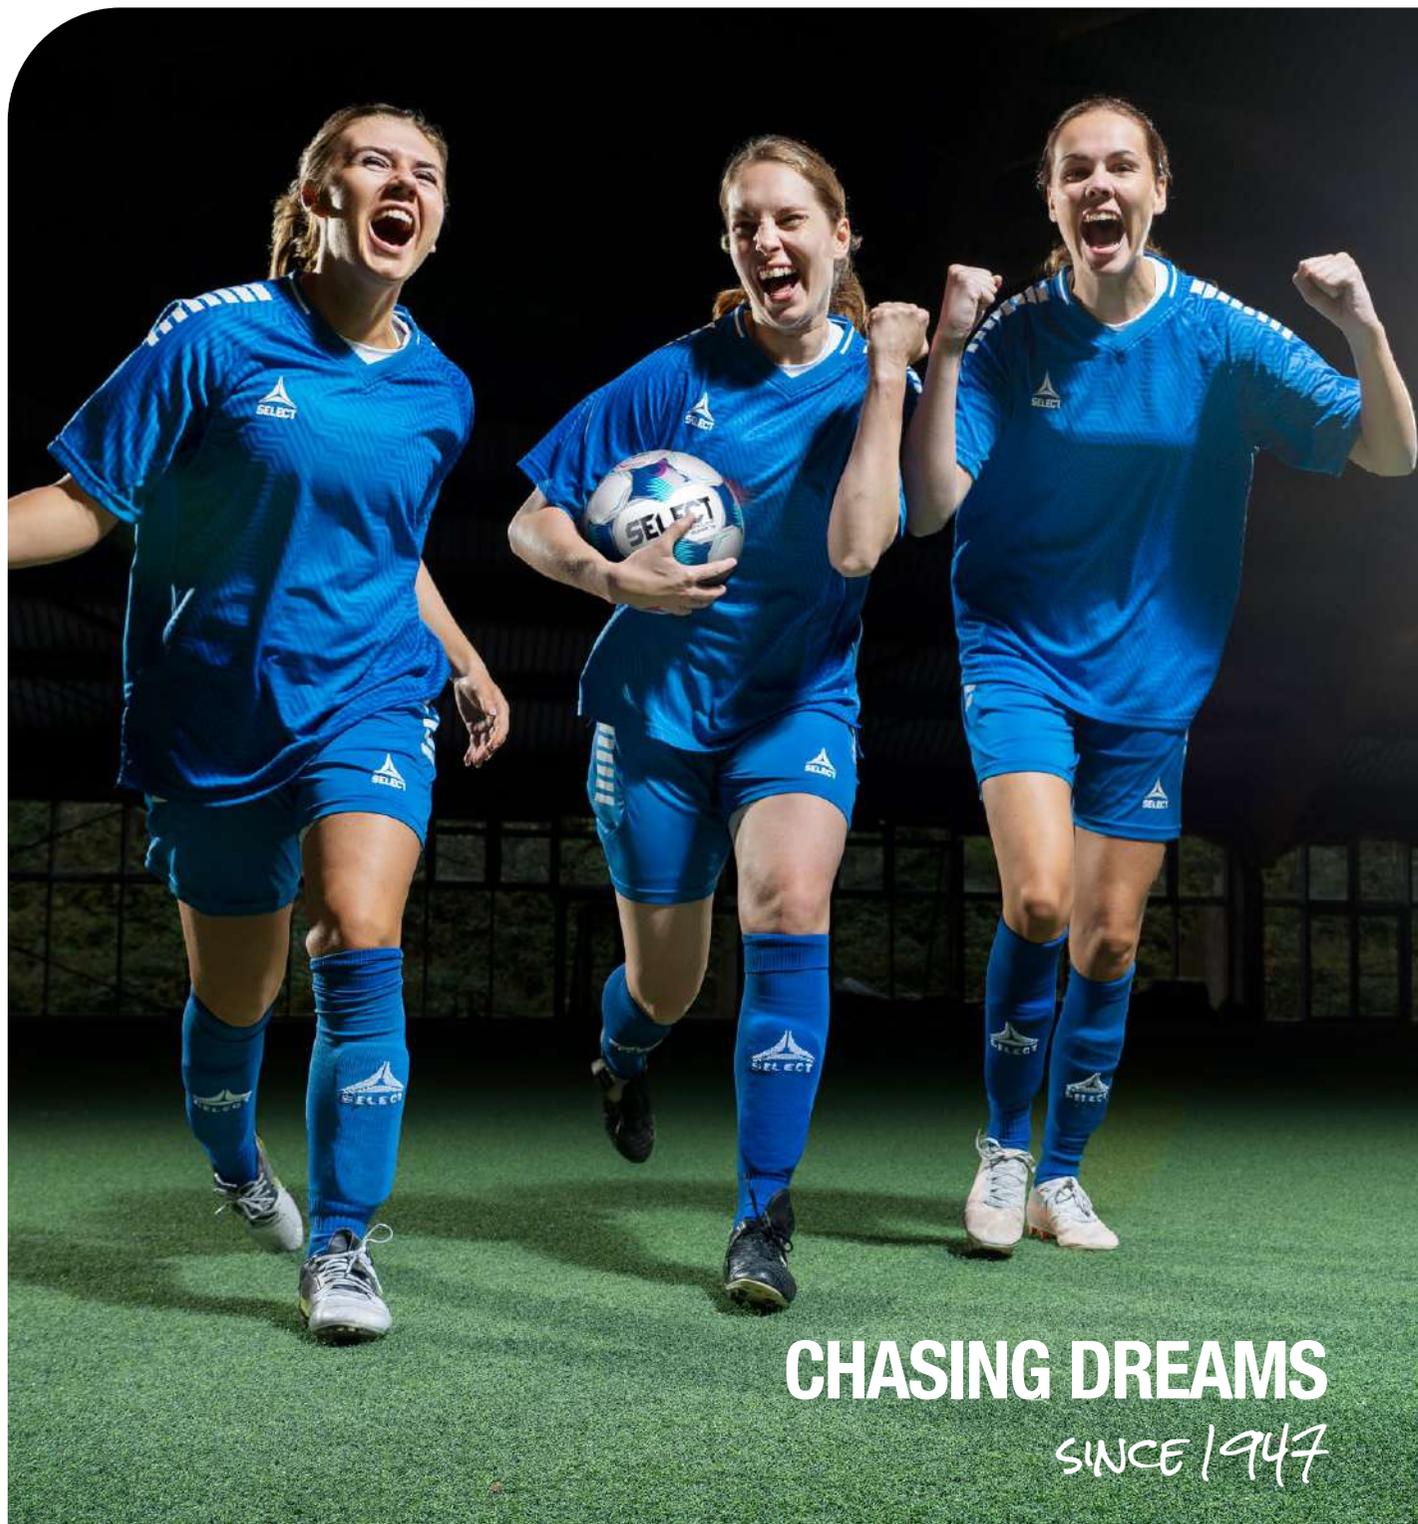

This premium collection of player and training apparel is a tribute to the modern sports universe, where style meets functionality.

In our pursuit of more sustainable initiatives, we have ensured that all products in our Monaco 2024 collection include recycled polyester. Some products are made of 100% recycled polyester, while others are partially made from recycled materials.

This collection includes everything from our tailored player and training wear to specially designed outfits for coaches and team managers, as well as leisure-wear – and every piece of clothing is a manifestation of our dedication to quality and performance.

We have also included a stylish rain suit that combines practicality with elegant aesthetics. Regardless of the weather conditions, our clothing can handle it. Our player jerseys and shorts are not only quick-drying and breathable, but also lightweight and made of durable material. This makes them suitable for both football and handball, ensuring players can perform at their best without compromising comfort.

But it doesn't stop there. We have taken the design to new heights in this collection. A fresh pattern has been integrated into our player sets, and the color palette has received a creative boost compared to our previous collection. Now there are even more options, so each team can express their unique style on the field.

The 2025 edition of our sports apparel line, Spain, offers a comprehensive range of sportswear that covers both match and training needs.

In this collection, you'll find everything you need, including the new player kit made from 100% recycled polyester.

In addition to the player kit, the Spain line also offers a wide range of training apparel, such as training sweatshirts, training pants, training jackets, and a practical windbreaker.

A common denominator for both the player and training apparel is their comfort and breathability, ensuring optimal performance and freedom of movement. Most styles are available in a wide range of colors, so you can find the perfect color to match your club.

While the player kit is made of 100% recycled polyester, the training apparel also contains a significant amount of this recycled material. This innovative material choice underscores our focus on more sustainable initiatives.

SELECT PISA

Our PISA collection is designed with a focus on team training and matches, and therefore comes in a wide range of colors so you can find the perfect match for your club.

In our PISA collection, you will find player jerseys and shorts in breathable polyester, designed to keep you comfortable during training sessions and matches. The soft, quick-drying, and flexible material feels great against the skin and gives you full freedom of movement so you can move freely and effortlessly - and thus perform your best on the field.

In addition to the player sets, you will also find training sets and a coach jacket in this collection. The training set is perfect for warming up and for training in the colder months. The coach jacket ensures that you, as a coach or team manager, can stay warm on the sidelines.

All products in the PISA collection are designed with a focus on both comfort and durability, so you can be sure that your training gear will last for many seasons.

GOALKEEPER GLOVES **NEW** NEW 2026 LINE-UP

In 2026, we are proud to present a brand-new goalkeeper glove line-up! The entire collection has been upgraded with a fresh design, where each theme is thoughtfully created to catch the eye and match the style of the modern goalkeeper.

But the improvements go beyond just a new look. We have worked hard to implement a range of new technical details in many of our new gloves. These innovations are designed to enhance the goalkeeper's performance and maximize comfort on the field. Whether it is an improved grip, a more ergonomic fit, or a lighter material, every improvement has been made with the goalkeeper in mind. In this new collection, you will find gloves for all levels and ages, as well as a completely new glove designed for girls and women. So, find your favorite SELECT gloves and take your performance in the goal to a whole new level!

WOMAN OF THE MATCH!

As a very special new addition, this year we are introducing a glove made specifically for female goalkeepers. These gloves have been developed in collaboration with professional female goalkeepers and are designed to better fit a woman's or girl's hand.

PERFORMANCE

FROM TALENT TO TOP ATHLETE: SAME DESIGN, SAME AMBITION

Whether you are already a professional keeper or aspiring to be the next big star, we have the right glove for you.

Our mission is to deliver the highest quality and best performance for all age groups and skill levels.

The elite glove and the junior glove share the same dynamic design. This allows young keepers to train with a look that matches their idols. Our professional gloves are packed with the latest technical details and innovative grip that our top keepers rely on. Simultaneously, our gloves for children are designed with the same focus on comfort and durability, giving young talents a fantastic grip and the right support to develop their skills.

Find the perfect pair today, and let's take your goalkeeping performance to the next level!

**93 ELITE V26**

NEW

Style no. 500100

Size 7-8½-9-9½-10-10½-11-12

Price PLN 579

The 2026 version of the 93 Elite is here - with a striking new colorway of shades of grey and a vibrant green, featuring a bright yellow. The Punch zone is 100% covered in thick latex foam to ensure a strong box clearance.

All details have been smoothed to ensure boxy flat-cut for optimal game performance. Wrist has been made asymmetric with a pull-tab for an easier access and the strap is now completely textile to secure a tighter fit. The backhand is embossed to provide our goal keepers with a sensory feedback and activation. The palm features our top-performing professional latex, renowned for its exceptional grip and durability.

KIDS

03 KIDS V26

NEW

Style no. 500090

Size 00-1-2-3-4-5-6-7

Price PLN 119

Adding a new chapter to the 03 story, the 2026 edition will be paired with our 93 Elite glove in terms of design and function. This includes a new cool colorway with twisted green, deep grey, and bright yellow, along with some functional performance updates. We've added an EVA strap to protect wrist and lower arm. All textiles are now soft and durable combined with elastics to ensure a good fitting. The palm remains Flat Cut to provide a wider grip zone, making it the perfect partner for shot-stopping. Backhand has been updated with a sandwich material for added warmth and to ensure a protected fit.

90 FLEXI PRO V26 **NEW**

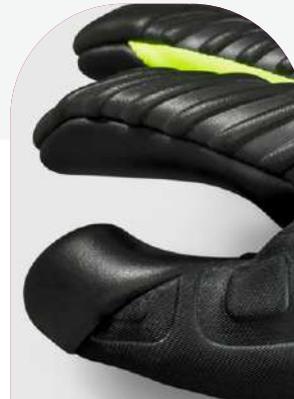

Price PLN 425

Style no. 500098

Size 7-8-8½-9-9½-10-10½-11

The new beast is here: 90 Flexi Pro v26. We're excited to introduce the v26 edition with significant performance and design changes. A fierce black and deep brown colorway with bright yellow details gives you a panther-like appearance. The glove features our new Hybrid Cut for a tighter anatomical fit, especially around the index and pinky fingers. We've updated the V-notch around the thumb, and the Punch Zone is now completely latex-covered. The embossed backhand provides enhanced sensory feedback. The palm features our renowned professional latex for exceptional grip and durability, which now extends to the wrist for a unique 90-degree twist. The wrist gusset is a robust elastic, optimizing the fit. Ready for the jungle? Let's go get it.

90 KIDS V26 **NEW**

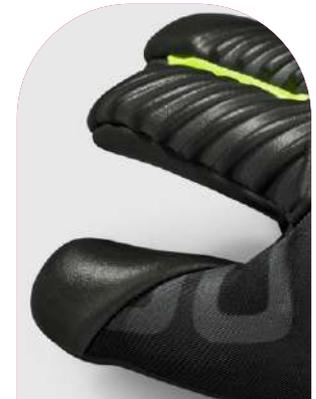

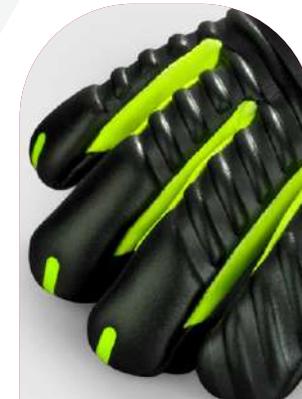

Price PLN 249

Style no. 500099

Size 4-5-6-7

As part of the 2026 goalkeeper glove launch, the 90 Kids series is undergoing a transformation, inspired by the 90 Flexi Pro. This new version features a striking black and brown colorway with black latex, accented by our signature bright yellow details. These gloves will make you look like a wild panther through the air as you make impressive saves in the box. The design features are all sublimated to fit perfectly within our kids' collection. For 2026, we introduce our Hybrid Cut, also known as the Slice Cut, which provides a compact fit around the index and pinky fingers, ensuring highly flexible control. The V-notch around the thumb joint has been integrated for enhanced thumb flexibility.

**88 PRO GRIP V26****NEW****Style no. 500096**

Size 7-8-8½-9-9½-10-10½-11-12

Price PLN 569

Introducing the 2026 version of the 88 Pro Grip in an all-white 'ghost' colorway, designed to scare those strikers, making them think twice before stepping into the box. We've introduced an all-new construction and Hybrid Cut, the Slice Cut, combining the classic Negative Cut with enhanced features for your index and middle fingers, ensuring a highly technical fit and optimized control. The backhand material has been reduced for a closer fit to the hand and improved sensory feedback, giving a better playing experience. The palm, as always, features our top-performing professional latex, renowned for its exceptional grip and durability. The Punch Zone is completely covered in grippy latex to maximize box clearances. The wrist is now asymmetric with a pull-tab, and the strap is a hybrid design featuring a foam and textile setup, to increase performance in close-contact situations.

**KIDS****88 KIDS V26****NEW****Style no. 500094**

Size 3-4-5-6-7

Price PLN 179

As part of the 2026 glove launch, the 88 Kids is going through a transformation following the 88 Pro Grip in an all-white colorway. A new smooth Negative Cut has been implemented together with an asymmetric wrist to create the best possible kids fit. The Punch Zone is now completely covered in latex to ensure a strong and protective box-clearance. All design features have been sublimated and matched with the 88 Pro Grip. As a special 2026 feature, a bright yellow color will go through the gloves, unifying the collection and making the gloves stand out on the field. The elastic wrist closure provides a more versatile fit, and the interior features a warm and wind-resistant mesh, ideal for saving important shots on cold days.

**LIMITED EDITION****88 PRO GRIP V26****NEW****Style no. 500096**

Size 7-8-8½-9-9½-10-10½-11-12

Price PLN 569

This year, our 88 Pro Grip will also be available in a limited edition beige colour. Perfect for the goalkeeper who wants to stand out in a cool, classic way, moving away from all the more aggressive colour combinations on the pitch. The beige tone gives you a classic, sophisticated look that matches a calm overview in the goal. It features all the same top-glove properties as our 88 Pro Grip in white.

AQUA

RAINY WEATHER? NO PROBLEM!

Do not let rain and wet weather ruin your goalkeeping performance. We know that grip is crucial, which is why we have developed a goalkeeper glove specifically designed to perform optimally in damp and wet conditions. Rainy matches demand extra confidence in your gear, and with this glove, you can focus entirely on the save instead of worrying about losing your grip.

GET READY TO DOMINATE THE BOX IN ALL WEATHER CONDITIONS!

88 AQUA V26 **NEW**

Style no. 500095

Size 7-8-8½-9-9½-10-10½-11-12

Price PLN 569

Don't let the rain stop you! The updated 88 Pro Aqua is built to dominate in challenging conditions. The glove features a new windstopper membrane to keep your hands dry and warm. We've enhanced the fit with a double-sided wrist strap and pull strap, and introduced a Hybrid Cut with Slice Cut for optimal technical control. At its core is our innovative AquaPro+ latex palm, famous for its exceptional grip and durability in wet weather, alongside a grippy latex-covered Punch Zone for powerful saves. Thanks to its "sandwich materials," it's perfect as a winter transition glove. Wash after use to maintain maximum grip. With the 88 Pro Aqua, not even bad weather can stop you!

WOMAN OF THE MATCH!

As a truly special addition, this year we are proud to introduce a glove made specifically for female goalkeepers. These gloves were developed in collaboration with professional female keepers and designed to fit a woman's or girl's hand better. We analyzed the actions of female goalkeepers on the pitch to see where we could make a difference.

Based on analyses and feedback from professional female goalkeepers (crucial input that we couldn't get from any textbook, AI, or Ph.D.), we have designed a glove that will make it easier for female goalkeepers to top-perform in the goal.

A GAME-CHANGER IN WOMEN'S FOOTBALL!

89 WOMEN V26

NEW

Style no. 500097

Size 6-7-8-8½-9-9½

Price PLN 425

We have studied the female hand and the way female goalkeepers operate in the box. Based on this, we have developed an entirely new construction with longer fingers and a shorter wrist strap to ensure a professional fit. The palm has been shortened and tightened to ensure a close fit to the hand. All latex on the thumb has been removed to increase the thumb's mobility, and the foam on the outer side of the glove has been minimised to make the glove lighter. The wrist has been made shorter to fit the female wrist and forearm precisely—the same applies to the strap, which is based on elastic and textile-covered EVA, allowing you to achieve a unique fit. Everything is created asymmetrically for a perfect fit. The centre of the fingers features a Negative Cut, and the outer part is a Slice Cut, which allows for a more technical performance. All in all, this is a top-quality glove for female goalkeepers.

CLUB

THE PERFECT GRIP FOR EVERY LEVEL

Whether you are a weekend warrior or a full-time professional, you will find the ideal glove in our collection. We know that one glove does not fit all, which is why we have developed a broad line-up with various features and technologies.

Every glove is built to maximize your performance and comfort, regardless of the surface or weather conditions. Find the level of grip, support, and protection that matches your game, and get ready to stand strong in goal!

77 SUPER GRIP V26

NEW

Price PLN 375

Style no. 500093

Size 7-8-8½-9-9½-10-10½-11

Moving into the lineup inside the lineup - our basic trio of 77, 55 and 33 stands as a united collection with individual twist and tweaks. All of them designed in mono-colors with bright yellow features. The 77 Super Grip is an introduction style for your transition into the top level gloves. With the 77, you'll experience the feel of an extended asymmetric wrist, the fit of a hybrid Slice Cut on your index and pinky fingers, and the sensation of a pre-shaped grip when saving important long-range shots. The backhand is fully embossed to enhance sensory feedback, the punch zone is covered in latex, and overall flexibility is high. The general fit of the 77 and 33 is slightly boxier, comparable to the 88 Kids or 93 Elite. Go out there and have fun!

33 ALLROUND V26

NEW

Price PLN 229

Style no. 500091

Size 5-6-7-8-8½-9-9½-10-11

Moving into the lineup inside the lineup - our basic trio of 77, 55 and 33 stands as a united collection with individual twist and tweaks. All of them designed in mono-colors with bright yellow features. The 33 Allround is our basecamp glove - it's the perfect transition glove with a traditional Negative Cut and a boxed fitting. Introduced in a too cool, light grey colorway that will surely impress your opponents. Punch Zone is covered with foam and all gussets come with breathable and flexible mesh. The elastic textile wrist construction ensures a snug fit. Great quality glove for a basic cost - a glove for all ages.

55 EXTRA FORCE V26

NEW

Price PLN 299

Style no. 500092

Size 7-8-8½-9-9½-10-10½-11

Moving into the lineup inside the lineup - our basic trio of 77, 55 and 33 stands as a united collection with individual twist and tweaks. All of them designed in mono-colors with bright yellow features. The 55 Extra Force is our take on the Swiss Army knife. A multitool specifically designed for technical games and challenges. Built in a lightweight performance setup with 3 different cuts. To ensure technical control we've added the lateral Slice-cut on Index and Pinky, medially it's Flat Cut to create a squared look and touch, and in the center it's negative cut to optimize flexibility. A special type of glove, ideal for AG or Beach soccer. Punch Zone is covered with latex, fingers have built-in air vents and the wrist has an elastic textile wrist construction for easy and comfortable wear. A fun and exciting glove filled with details for all levels of the game. The perfect assist from box to box.

PROTECTION FOR CHILDREN

GLOVES WITH EXTRA PROTECTION

We offer goalkeeper gloves with extra finger protection for children. These gloves are designed with built-in support splints (or 'spines') that help prevent the most common finger injuries. If you are a parent looking for increased protection for your child, these gloves are an excellent choice.

The finger protection is carefully integrated so that you still maintain a comfortable fit and good freedom of movement. With the right protection, you can grab the ball with greater confidence and focus 100% on delivering strong saves in goal.

GLOVEBAG V25

Style no. 830042 Size 35 x 15 x 10 cm - 0,5 L

Price PLN 69

A re-designed wingman for our incredible glove-lineup. This bag can hold two set of gloves and comes with ventilation for rainy and sweaty days in the box. Implementation of thicker fabric optimizes overall durability and an interior pocket for your goalkeeper essentials makes this a easy go-to glovebag. Front panel comes with our traditional SELECT star and overall custom bolt trimmings.

KIDS

04 PROTECTION V26 **NEW**

Price PLN 145

Style no. 500101

Size 00-1-2-3-4-5-6-7

A refreshed 04 Protection with a new faded fresh green colorway for 2026 looking like a sparkling soda, well deserved after a heavy training session with your teammates. We're introducing 3 mm New Softy latex and 4mm sandwich foam which ensures good grip and durability. Fixed guards for reinforcement and protection of the fingers will be a life saver in dynamic field-interactions. The interior mesh of the fingers will ensure good air circulation and a anatomical Fit System will ensure a correct fit, as the glove is designed according to the hands' natural grip position. A wide latex strap supports the wrist and ensures quick, easy and correct adjustment. Staying with it's roots we're not changing the Flat-cut. Go out there and clear the box!

NEW DESIGN AND MATERIALS

Our sports supports are getting a groundbreaking upgrade in 2026! The new supports are made from GEOCELL natural rubber—a new material derived from rubber trees. This makes the product gentler on the skin and biodegradable, which is good for both you and the environment.

While black remains the dominant color, a new pattern in our green PROFCARE color has been incorporated into the sports supports. This green pattern is inspired by the cell structures of the rubber trees from which the new material is extracted. Our new sports supports have been tested at the highest level of handball, with both men's and women's teams, for both matches and training—with positive feedback. The feedback was that the sports supports offered better playing experience, improved durability, and enhanced warmth and support. Find the sports support you need and play your best!

NEW CATEGORIES FOR EASY SELECTION

We have sports supports for many different body parts and with different purposes. To help you easily find the right one, we have divided our sports supports into three new categories.

SUPPORT

Our SUPPORT category provides targeted support for joints and muscles. These supports are perfect if you have, or want to prevent, muscle injuries, cramps, overuse injuries, or strains.

PROTECTION

Our PROTECTION category features padding and protects against impacts while providing general support. They are particularly effective for protection in sports with many impacts, blows, or falls, especially if you struggle with muscle injuries, cramps, overuse injuries, or strains.

STABILITY

Our STABILITY category assists with sensory feedback and limits unwanted movement. These supports are perfect if you have, or want to prevent, issues such as instability, overuse injuries, or joint injuries.

SPORTS CARE

NEW PACKAGING WITH A NEW DESIGN

We are proud to present our new series of products for sports massage and recovery. This series includes a range of innovative creams and gels designed to meet your specific needs.

All containers have received a new look. The new innovative containers are made from sorted plastic waste in collaboration with Danish Aage Vestergaard Larsen (AVL). With the introduction of this new material, we reduce the production of virgin plastic materials and simultaneously reduce the amount of plastic pollution that ends up in the world.

In addition, our heat creams and camphor cream have been given new names, but it is the same great content you will find in the containers. Our heat creams Heat 1, Heat 2, and Heat 3 can really boost a sore area or prepare the body for activity. Our Camphor balm comes with a lot of power and can be used over larger areas.

Our well-known massage cream is still available in our range, and there is also a brand-new Massage Cream+ with soothing bergamot. Last but not least, we can present a new gel called "Recovery Gel" based on Aloe Vera, Mint, and Eucalyptus for recovery after training or competition.

16-pack, Style no. 720098 Size 7,5 cm x 6,9 m

Price PLN 769

Dynamical wrap tape with a significant elastic stretch to provide support within a mobile joint/segment.

Great with ankles, wrist ect. The product is self-adhesive and highly breathable.

Great step before or after moving onto the stability category.

Provides good protection while maintaining mobility.

Apply on other bandags in the treatment of venous ulcers.

Latex-free, soft and comfortable.

STRETCH BANDAGE

Style no. 720054 Size 5 cm x 4,5 m

Price PLN 25.5

Style no. 720055 Size 7,5 cm x 4,5 m

Price PLN 38

Style no. 720056 Size 10 cm x 4,5 m

Price PLN 51

This product is a innovative development of the traditional elastic bandage.

The stretch bandage will provide a strong support and does not react with your skin – it's self adhesive and built on a non-woven elastic component with natural rubber latex to ensure optimized conditions.

STRETCH EXTRA BANDAGE

Style no. 720062 Size 6 cm x 3 m

Price PLN 46.5

Style no. 720063 Size 8 cm x 3 m

Price PLN 66

This product is the 6th gear of our stretch bandage.

The stretch bandage extra will provide an even stronger support and focuses on a high elastic support.

It's self adhesive and built on a non-woven elastic component with increased levels of natural rubber latex to ensure high compression conditions.

Does not cling to the skin, only to itself.

Sweat and water resistant.

Can be torn by hand.

ELASTIC BANDAGE

Style no. 720092 Size 7,5 cm x 7 m

Price PLN 18.5

Style no. 720093 Size 10 cm x 7 m

Price PLN 23

Our elastic bandage is built on a wrap knit with 180% elasticity to create the best possible conditions. It comes with two fastening clips and ability to be washed in the washing machine at 40 degrees. The purpose of the elastic bandage is to optimize relief on sprains, distortions and as well add some compression. After repeated use, the binding loses some of its elasticity and supportive effect. When washed, the binding becomes resilient again.

TENSOPLUS

Style no. 720043 Size 8 cm x 3 m

Price PLN 109

High quality elastic self-adhesive bandage.
Does not cling to your skin, just to itself.
Easy to apply and easy to tear across.
Gives the right support compression and stays in place.
Can be used repeatedly.

TENSOPLAST

Style no. 720037 Size 5 cm x 4,5 m

Price PLN 93

Style no. 720038 Size 7,5 cm x 4,5 m

Price PLN 119

Outstanding elasticity and adhesive properties.
Allows the skin to breathe during long-term use.
No constrictive edges, does not wrinkle, no marks on the skin.
Good support bandage for fibre, knee and ankle injuries.

RELIEF (SECOND SKIN)

This category is all about protecting against things like hits, friction, scrapes, and other annoyances. The products are made to keep you safe.

FOAM TAPE

Style no. 720058 Size 5 cm x 3 m

Price PLN 54

6-pack, Style no. 720059 Size 5 cm x 3 m

Price PLN 263

The Profcare Foam Tape is constructed as a protective layer between skin and impact, to reduce wear, rubbing and irritation.

Use it as a second skin in areas that's exposed to increased irritation – could be as a layer beneath your shin guards, on the top of your foot to reduce tackle impacts or when introducing new footwear with intentions to reduce risk of blisters.

Being built of PU foam it's easy to remove and leaves no skin residue.

BLISTER PLASTER

Style no. 720115 2 x small, 4 x medium

Price PLN 55

Our transparent Blister Plaster provides blisters or irritations with the best conditions for recovery and prevents worsening of the condition. The different shapes are designed to fit into the world of sports. You wear the plaster until it naturally falls off.

Contains: 2x small + 4x medium

Medium: 44x69mm

Small: 18x61mm.

PRE WRAP

12-pack, Style no. 720067 Size 7 cm x 20 m

Price PLN 270

If you're a player with a high tape consumption it can be tough for your skin. In most cases it makes sense to have a layer beneath to prevent irritations.

Our pre-wrap is based on a 100% PU foam that will provide ultimate comfort with an easy removal.

FIXING TAPE

Style no. 720057 Size 5 cm x 10 m

Price PLN 20.5

Playing with wounds and plasters rarely optimize the conditions for healing or protection, so we've constructed the fixing tape. A top layer that will fixate your plaster or bandage and prevent it from moving anywhere. You've probably seen this product in cycling or after a tough season on artificial grass. It's build on a non-woven fabric with a wrap ideology designed to remove stabile in motion.

Fold your cut off in half to access an easy opening.

Self-adhesive non-woven tape.

Breathable and latex free.

Easy to tear off.

BALL-PUNKTUR & BALL-STIK

The Ball-Stik and Ball-Punktur were pioneered over 45 years ago by relaxation therapist Grete Wolfgang, in partnership with SELECT. Since then, these massage balls have become iconic, finding their way into gyms, sports clubs, and therapy rooms worldwide.

Designed with a textured surface that combines acupuncture, reflexology, and massage techniques, they stimulate blood circulation and lymphatic drainage to reduce swelling and alleviate muscle tension.

Produced in Denmark since 1972 using phthalate-free plastic, these products, particularly the compact Ball-Punktur, are trusted by Tour de France cyclists for post-race recovery. By enhancing blood flow and muscle strength, Ball-Punktur helps athletes perform at their peak.

BALL-STIK

Style no. 420010

Price PLN 259

Larger massage ball suitable for the entire body, especially larger areas. Its textured surface combines acupressure, reflexology, and massage to relieve muscle tension and increase blood circulation. Use it on your feet, back, shoulders, and more. Perfect for post-workout recovery or to relieve tension after a long day.

Get a deep tissue massage with two different techniques: Roll the ball over larger muscle groups to release tension, or press on specific trigger points to relieve soreness. You should feel it, but it shouldn't hurt too much.

A Danish classic. Made in Denmark since Grete Wolfgang's original design.

SHIN GUARDS FOR ALL AGES AND LEVELS

OUR THREE SHIN GUARD STYLES DRAW INSPIRATION FROM OUR CLASSIC FOOTBALLS.

The CLUB shin guard is our classic style featuring the iconic retro look, but without compromising on performance, safety, or comfort. The silhouette of the classic shin guard has been updated with a new, minimized, and faster design. The shin guard is named CLUB as it suits all ages and levels out in the clubs.

TEMPO is our new lightweight shin guard, making it the smallest shin guard in our assortment—but without compromising safety. This shin guard can be advantageously used with our shin wrap, sock wrap, or sock tape in your club's colors.

Our new SUPER shin guard consists of a flexible TPU shell filled with comfortable EVA foam, along with an accompanying sock that provides compression, has a pocket for the shin guard, and ensures an optimal fit. This shin guard is the perfect teammate for your matches and training.

SHIN GUARD SUPER V25

Style no. 850025 Size XS, S, M, L

Price PLN 129

Our top performance shin guard provide you with a flexible plate, of compressed EVA foam combined with flex-zones formed as our iconic ball panels, to ensure the best possible conditions to perform on the pitch. The shin guard is assisted by a top quality sock, that provides compression and a pocket for the plate. This combination is the perfect teammate for match and training.

SHIN GUARD CLUB V25

Style no. 850023 Size XXS, XS, S, M, L

Price PLN 110

The classic shin guard silhouette has been redesigned with a minimized and simplified design. This new design prioritizes fit and introduces a new combination of shell and sock. The shell is snugged to the shin, while the sock has been reduced in width by 10% to provide stability and a tighter fit around the ankle. Additionally, the foot strap has been widened to ensure better plantar support. The overall design aims to cater to its user and culture through its character, symbols, and attitude. Velcro is placed on the front for easy closure. All our shin guards are made with focus on safety and comfort.

SHIN GUARDS HOLDER

Style no. 800051 One size

Price PLN 38

A clever and simple accessory as an alternative to tape. Helps to keep the shin guard in place.

SHIN GUARD TEMPO V25

Style no. 850024 Size S, M, L

Price PLN 69

Our lightweight shin guard is made with focus on safety and comfort – while being our smallest shin guard in the range. Together with the stronger Velcro straps and a new anatomical fitted shell, we have optimized overall fitting. We recommend using it with our shin wrap, sock wrap or your team colors in sock tape.

KEEP TRACK OF YOUR SHIN GUARDS

SHIN WRAP

12-pack, Style no. 800069 7 cm x 20 m

Price PLN 299

SPORTS BAGS FOR DIFFERENT PURPOSES

Our 2025 collection includes our sports bag in three different sizes, a team bag both with and without wheels, two different everyday backpacks, a waterproof backpack, a shoulder bag, a gym bag, and a smaller bag for goalkeeper gloves.

All bags in this collection are manufactured from a new, thicker material, 1680D instead of 600D, making them extra durable. Several of the bags have been updated with new functional compartments and a more user-friendly design, making them even more practical for daily life.

Some of the most notable new additions to this collection include our new waterproof backpack, the “Backpack All-Weather,” and the new “Cross-body” shoulder bag. Both models feature a new stylish design. These bags are ideal for both everyday use and for carrying your training clothes and equipment to and from practice.

We are also introducing a small bag specifically designed for storing goalkeeper gloves. This case is perfect for the goalkeeper who wants to keep track of their gloves and stay organised on the go.

We have ensured that all our bags are comfortable and practical, so you can find a model that perfectly suits your purpose. Whether you need a bag for everyday use, sports, or travel, this new collection will meet your needs with style and functionality.

FROM BALL INNOVATOR TO RESPONSIBLE SPORTS PARTNER

SELECT's founder and national team goalkeeper Egil Nielsen set out to create the perfect football. His vision led to the revolutionary invention of the 32-panel ball - a groundbreaking innovation that is still the standard today.

SELECT was founded in 1947 by the Danish national football team goalkeeper Egil Nielsen. He was the goalkeeper for the Danish national team that won the bronze medal at the 1948 London Olympic Games. In Egil Nielsen's time, footballers could not make a living from their sport, so he studied sports psychology while working in the footwear and leather industry. During this time, he created the first SELECT football. In 1951, Egil Nielsen entered into an agreement with the Danish Football Association (DBU) to supply balls for the national football team's matches. This was the beginning of a long collaboration between SELECT and the DBU, which still exists today.

In 1962, SELECT introduced one of the greatest inventions in the history of football, namely a ball sewn together from 32 panels, making the ball perfectly round and thus reliable with perfect balance and a straight flight. To this day, this construction is the standard for balls, regardless of manufacturer. In 1974, SELECT stopped using real leather and produced the first hand-stitched synthetic leather ball. Synthetic leather quickly became the preferred choice of players, and today all SELECT balls are made of synthetic leather. SELECT now sells over 4 million balls each year.

CLOTHING, EQUIPMENT AND SPORTS CARE

Throughout the 2000s, the SELECT range has been continuously expanded to now also include various sportswear, training equipment and SELECT PROFCARE (which is our category of sports care products in the form of supports, creams, tape, bandages, etc.). Today, we are your dedicated partner in football and handball. Our range is extensive, from innovative balls and high-quality training clothing to professional sports equipment and effective SELECT PROFCARE products. We have everything you need to optimize your performance on the field, and we are a reliable, flexible and dependable partner. Our wide range of balls, sportswear and sports equipment is sold in more than 50 countries around the world.

RESPONSIBILITY FOR THE FUTURE

We are not only passionate about sports, but also about our planet. Therefore, we have a strong focus on our environmental impact in all aspects of our business. From the choice of materials and production processes to transport and consumption - we are constantly working to minimize our environmental impact. Here are just a few of the measures we have implemented in recent years: we have significantly reduced our plastic consumption on packaging, much of our clothing contains recycled materials, we have produced a reusable water bottle made of sugar cane, we have introduced our PLANET balls which are partly made from plastic bottles, and as something new this year, we are now also introducing new buckets made from recycled plastic. We are constantly working to find new solutions that can make our products and production more environmentally friendly.

From the Danish lawns to the world's largest stadiums - SELECT has been there all the way! And we still serve both the elite and grassroots. Want to be a part of our history?

SUSTAINABLE EFFORTS

We know that our actions matters.

We are continuously taking sustainable steps in our production, packaging and transportation. We want to reduce the use of plastic in our packaging and are focusing on introducing recycled materials in our products. By using recycled materials, the environmental impact of our products is reduced.

Sustainable Initiatives at the Factory

The installation of **1,747 solar panels** on the roofs of our supplier Anwar Khawaja Industries' factories in Sialkot, Pakistan, is expected to reduce **CO₂ emissions by 765 tons annually.**

This year, we are introducing new resin and sports care containers that, without the lid, consist of **100% recycled HDPE plastic**

Our factory is now **only using recycled plastic bags** when producing our footballs and clothes

We saved **300.000 plastic packets annually** by switching our Profcare Support packaging from plastic to a smaller cardboard packaging, thereby **reducing our transport volume**

Baselayer underwear for sports made with Repreve® Polyester - a yarn made from **recycled plastic bottles**

Our Baselayer styles contain a minimum of **74% recycled materials.**

Our Brilliant Super UZ league balls and our Ultimate Champions League and Euro handballs are made with PU material that consists partially of **recycled plastic from PET bottles** and the non-edible parts of corn and sugar.

A minimum of **41%** of the synthetic leather in our league balls is made from recycled material.

Our Spain player wear is made from **100% recycled polyester**

We have reduced our **use of plastic by 50%** in the packaging of the MONACO, SPAIN, OXFORD and PISA clothing lines

Our v24 cones are made of **100% recycled plastic** (high density polyethylene)

Recyclable water bottles in a **100% bio-based material** processed from sugar canes

The balls in our PLANET series are made from PU material that is partially produced using **recycled plastic from PET bottles**. The Futsal Planet contains polyurethane that is 50% recycled from PET bottles, and polyester that is 80% recycled from PET bottles. Our Planet football contains polyurethane that is 45% recycled from plastic bottles, and polyester that is 80% recycled from plastic bottles.

THE ORIGINAL 32 PANEL BALL CONSTRUCTION

Every single football, handball and futsal ball from SELECT is based on the revolution from 1962, where our founder, Eigil Nielsen, invented a ball made of 32 panels. The overriding desire was to create the most reliable ball with the most predictable, straight flight and a bounce neither too high nor too low.

It was impossible to make a perfectly round ball with just 18 panels, which was the standard construction of a ball in the past. With the 32 panels – 20 hexagons and 12 pentagons - SELECT succeeded in creating the roundest ball ever seen. Later, a group of American scientists won the Nobel Prize for discovering that the molecules of carbon with a special irradiation organize themselves as a completely round ball – something Eigil Nielsen had already discovered and realized in his football with 32 panels, why the reinvention was named “the football molecule”.

A ball with optimum roundness is essential to obtain reliable aerodynamic – a straight flight and a controlled bounce. Our finest football, BRILLANT SUPER TB, has been thoroughly tested in a wind tunnel at the Institute of Health & Sports Science at the University in Tsukuba, Japan. The results show that BRILLANT SUPER has a better aerodynamic than other top balls in the market. The ball's classic construction with 32 panels means that the ball meets resistance at a later point in its trajectory through the air, thus retaining a steady, high speed over a longer period of time. This provides a stable and more predictable flight – highly valued by all football players.

The majority of our balls are still based on Eigil Nielsen's original invention of the 32 panel ball construction, as we never compromise on quality, playability or durability.

BLADDERS AND VALVES

Beneath the synthetic leather of our top balls, you'll find a Zero-Wing bladder made of natural latex with a built-in balance point opposite the valve hole. The concept has been developed to ensure not only the ball but also the bladder is as round as possible. On the outer side of the bladder, there is a lining of thick, exclusive foam material. The lining helps adjust the softness and enhances the contact between the ball and foot.

Inside our dual-bonded balls, beneath the synthetic leather, you'll find an SR (synthetic rubber) bladder that holds air excellently.

Our futsal balls have a different bladder to ensure the ball has the correct low bounce characteristic of a futsal ball. Hidden behind the elegant surface of the futsal ball is a specially developed butyl bladder with polyester fibers inside. This ensures a highly reliable low-bounce ball compared to a regular football, making it much easier to control and perfect for futsal.

The valve in our bladders differs from bladder type to bladder type. In a butyl bladder, the valve is made of butyl, while on latex and SR bladders, we use rubber valves. Our double-lock construction, where the air must pass through two "gates" to escape, exceeds FIFA's requirements for airtightness. In futsal balls, there is a foam lining around the valve on the inside of the bladder, ensuring that the fibers remain in the ball and do not get stuck in the valve, as this would compromise the ball's airtightness.

HAND-STITCHED

With care and precision, the 32 panels are meticulously stitched together by hand, creating outstanding quality and durability. Each ball is the result of 630 double stitches and 60 corner stitches, carefully executed to ensure the ball's structure is solid and robust.

The culmination of this meticulous craftsmanship is a double knot that ensures the ball remains intact and retains its shape through intense use. This thorough approach to production ensures not only a longer lifespan for the ball but also consistent and reliable performance on the field.

THERMO BONDED

TB stands for Thermo Bonding, an advanced method that uses heat and pressure to activate the adhesive bonding the 32 panels together. This means the ball is created without the use of stitches, resulting in a completely smooth surface and a more uniform ball.

This method not only serves to create a seamless construction; TB balls are also designed to effectively resist water absorption. The minimal water absorption helps preserve the ball's original weight, crucial for the gaming experience, especially in wet conditions. Players can trust that the TB ball maintains its quality and performance regardless of the weather conditions on the field.

The TB ball is crafted with attention to detail, delivering an impressive gaming experience that meets the highest standards in ball technology.

ULTRA ZONIC

In 2021, SELECT set new standards in ball technology by introducing the world's first football manufactured using ultrasonic technology. Brilliant Super UZ represents a groundbreaking construction method that is Danish-patented and unique worldwide. This method uses ultrasonic sound waves to weld the ball's 32 panels together.

During the manufacturing process, the ball's panels are held together under pressure while ultrasonic sound waves activate the microfiber molecules in the material. This is achieved by creating friction, resulting in a seamless fusion of the fields. This advanced method not only guarantees exceptional durability but also ensures minimal water absorption. The ultrasonic welding technique is designed to keep the ball's weight stable, even in wet weather conditions.

SELECT's Brilliant Super UZ is a masterpiece of technological innovation and Danish expertise, bringing a new dimension of performance and reliability to the football world. This ball is created for those who appreciate the best in sports equipment and strive for outstanding performances under all conditions.

DUAL BONDED

Our dual-bonded ball production method represents a technologically advanced approach to ball manufacturing that combines the best of both worlds. In this method, the ball's 32 panels are both sewn and glued at the edges. Each part of the ball is carefully assembled using 3 mm edge adhesive and stitches, ensuring a strong and durable construction.

In the heat mold, the ball undergoes a process where the adhesive is activated to conceal the stitches. This technique not only provides a smooth surface but also creates a more aerodynamic and uniform ball. Seam sealing is done manually, emphasizing SELECT's focus on craftsmanship quality and precision.

THE INTELLIGENT SELECT BRILLANT SUPER IBALL

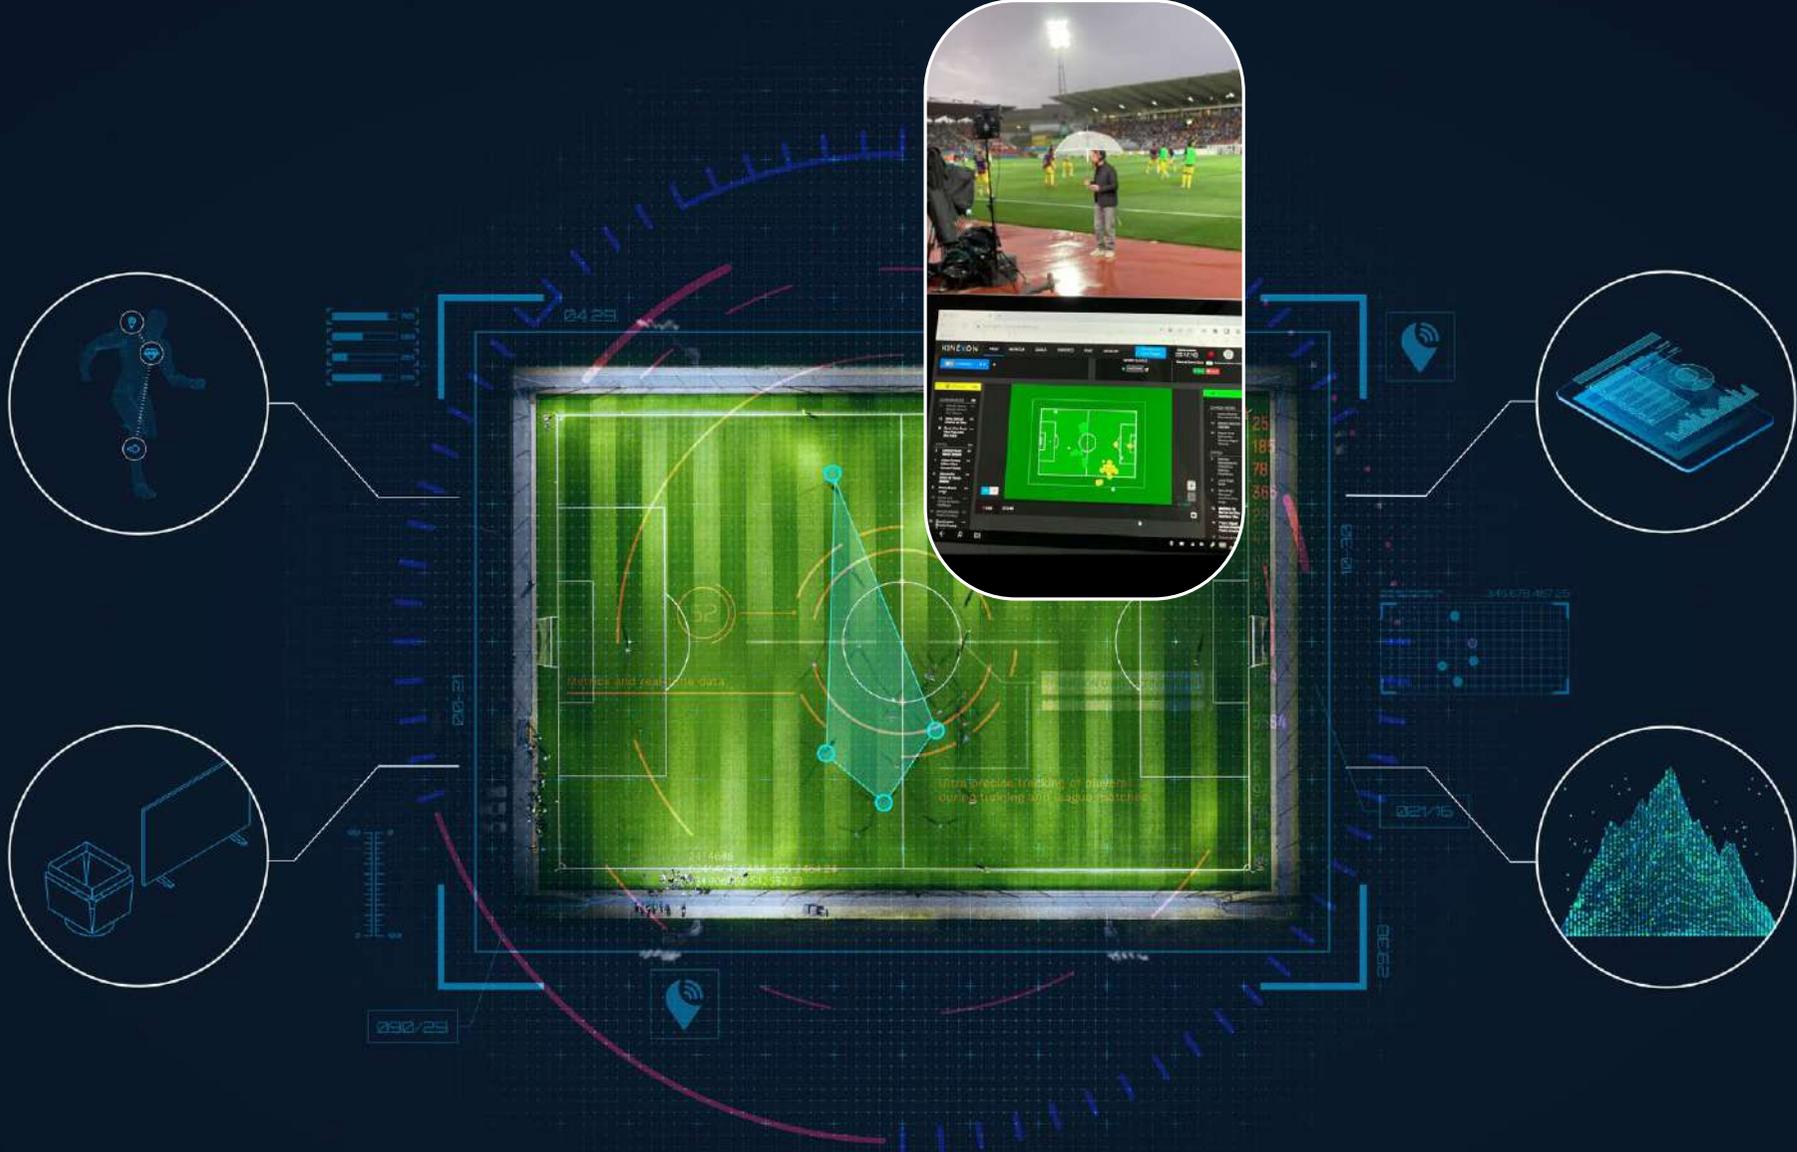

SELECT and German KINEXON have co-developed the intelligent SELECT Brilliant Super iBall – a football with an integrated tracking sensor that will improve the football experience for everyone, as completely new data from football matches will now be available.

SELECT Brilliant Super iBall combines SELECT's in-depth knowledge of football with KINEXON's expertise in electronics, tracking and analysis.

Advantages of the SELECT iBall

- Collects real-time data on shot speed, successful passes, quality of ball handling, shots per player and team, and much more.
- Can be used by clubs to analyze player performance and the team's performance during matches and training.
- Can engage fans in the stadium and at home with live graphics showing game data.
- Journalists and commentators can receive live data about the match while they are covering it.

ULTIMATE iBall WITH A BUILT-IN CHIP THAT TRACKS AND DISTRIBUTES DATA IN REAL TIME

The ULTIMATE iBall is the world's first intelligent handball, featuring an embedded chip that tracks and distributes data in real-time.

The handball made its debut at the EHF FINAL4 in 2018. This was the first major event in European sports to utilize the new tracking technology, capturing precise ball speed, shot registration, shot position, and more. This data can be used to bring fans and media closer to the game.

Our ULTIMATE iBall will once again take center stage at the Men's European Handball Championship in January 2026.

iBall TECHNOLOGY

Spectators are able to observe the speed of the ball and the distance from goal for every shot in the game.

The shot distribution on court from one team or a specific player will be displayed for broadcasting and digital channels.

The position of every shot entering the goal will be displayed, illustrating scoring strategies. All information is detected automatically and in real-time with interfaces for both broadcast and digital channels.

THE PERFECT LINEUP

"This year we're introducing a completely new goalkeeper lineup – filled with innovations, modified constructions, updated anatomy and jaw-breaking designs. We did it all in collaboration with goalkeepers, at all levels – it's no secret that goalkeepers are special species. Determined with strong opinions, focused on small details, never compromise on performance and an exclusive eye for design.

We've tested, discussed and innovated. In other words – we created it for you – no matter if you're elite, grassroots, academy player or the only one not scared of the ball. There's a glove for you in the lineup. In our development process, we also noticed the heavy responsibility

that sits on a goalkeeper's shoulder – symbolized in their obsession in details. Goalkeepers are out there alone – where every touch, move and minute is crucial. We took that sensation and created our new development statement: **10 OF THEM – 1 OF US**. Here's a lineup built by you and us for you. As a team - just like it should be.

On these pages we'll go through every detail – opening secrets and spill all the details we're normally keeping confidential. Welcome to the 2026 Select Sport Goalkeeper universe."

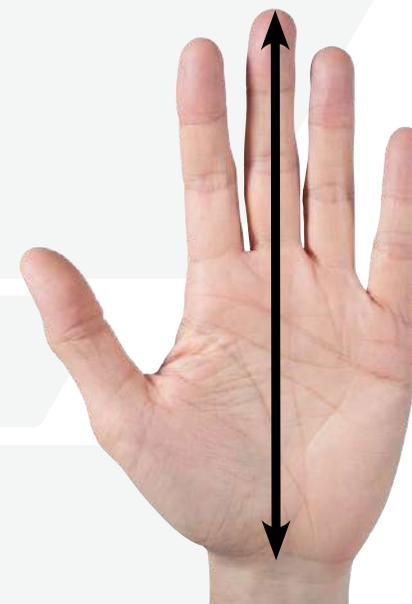

– Product Manager, Frederik Munk.

New Elite Construction & Seamless Transition

A new overall setup in our elite goalkeeper gloves will follow the entire lineup, with details from the top gloves represented in every product. This strategy ensures an easier, more natural transition from Kids gloves or from the Basic range into the Elite gloves.

Enhanced Wrist Architecture & Stability

Kicking off the 2026 construction, we've designed a longer and more asymmetric wrist architecture with a pull-strap for easier access. The extended wrist construction stabilizes your underarm, and its deep embossing will activate sensory feedback. Gearing up, you'll feel ready to fight for that clean sheet. We're staying with a wide wrist strap. It may not be super modern or mega cool – but it's efficient, protective, and increases stability, which will keep you safe in rough battles for the ball. Goalkeepers are our number one priority, and just like you, we do not compromise.

Optimized Fit for Technical Feel

This collection will sit tighter on your hand, as we've shrunk the backhand cross axis to push materials closer to your hand for an increased technical feel. We're aiming to make that glove an extension of your body, and fitting is one way to do that.

Upgraded Punch Zone & Grip

The Punch Zone also got a massive upgrade—it is now fully covered with latex and embossed with deep grooves to increase grip and roll-out power. Fold your hand, load energy, and clear that ball out of here.

Material Technology & Weather Resistance

On the textile and material side, we're continuing with our Airprene material, which ensures your glove is ventilated without compromising on fit. The exception is the 88 Pro Aqua, where we've introduced a waterproof membrane that rejects water, keeping the glove light, reactive, and warm. All goalkeeper gloves are still built with our Anatomical Fit DNA.

Integrated Protection

Lastly, we still have gloves with extra protection. These gloves are designed with built-in support spines (finger saves) that help prevent the most common finger injuries.

Latex technology

The Professional (3mm + 4mm)

This foam has been developed in Germany – specifically to provide a supreme experience in our elite goalkeeper gloves. With the Professional foam you'll receive a responsive grippy palm-side that connects directly with any surface and provide brilliant ball-control, a high energy-return in shot-stopping, effective durability and constant level of performance. This foam is our professionals top-choice and represented in all top leagues across Scandinavia.

- 93 Elite v26, 90 Flexi Pro v26, 88 Pro Grip v26

The Giga Grip (3+3mm)

This foam is a special foam. Constructed with a light balance between the internal foam layers which will provide goalkeepers with a tight on-hand sensation, based on control and a highly technical worktool. Giga Grip surprises most with its incredible stickiness and high level of performance.

- 89 Pro Women v26, 77 Super Grip v26

The AquaPro+ (3+3mm)

It's a showstopper. We mixed the performance from Professional foam with the technicality of Giga Grip with a unique adhesive compound in between the layers that'll react Spiderman in wet conditions. Grip and ball control like none other. Foam is covered by a foil to maintain the highest level of foam re-activeness throughout its product-lifetime. Should be pulled of calmy – use the time as meditation, prepping your gear before saving the team in the rain.

Important note: keep the foam wet, before and after training.

- 88 Pro Aqua v26

The New Soft (3mm + 4mm)

Comes out of Spain. At first sight, you'll see a basic foam, but the New Soft is spicy. An aggressive palm control that's highly durable and comes with no compromises. It's built for shot-stopping, dynamic saves and get-away clearances.

- 90 Kids v26, 88 Kids v26, 55 Extra Force, 33 Allround 04 Protection v26, 04 Kids

Types of cuts

Negative Cut

The negative cut is characterized by seams on the inside and a somewhat tighter design. It offers less mobility but a snugger fit, resulting in a more direct and optimal ball contact. Primarily used by professionals..

Flat Cut

The flat cut is characterized by a traditional shape with a flat palm construction and a relatively large contact area. There are no seams on the inside of the glove, only a large flat gripping area, providing excellent mobility for fingers and hand.

Hybrid cut

In our Hybrid variation we've introduced an asymmetric setup removing the lateral gussets at index and pinky finger, to provide even more ball control and sensory impulse.

The FIFA Quality Programme for Footballs was introduced in 1996 to harmonise and improve the quality of footballs. Focusing on the ball, the very heart of the game, the prestigious FIFA quality labels are only given to balls that have passed rigorous testing.

FIFA Basic is the newest standard focusing on cost efficiency, durability and safeguarding player safety.

INFLATING INSTRUCTIONS

1. Straighten the ball out as best as possible.

2. Shake the ball so that the bladder is hanging loosely and vertically beneath the valve hole.

3. Allow 1 - 2 drops of SELECT valve oil to drip into the valve hole. Remember to oil the ball regularly so that the valve doesn't dry out.

4. Inflate the ball with a SELECT pump. It is important that the bladder is in the vertical position as shown here. Always remember to use the nipple.

5. Use a SELECT pressure gauge to check if the ball has the recommended pressure (see recommendation on the ball).

6. Clean the ball with a brush and tepid water. Dry the ball with a cloth. Place the ball in a ventilated room with a temperature of 15 - 20°C.
